

Petro Vaselo PV Grand Cru

Recas, Romania

Petro Vaselo is a property that spans 172 hectares, out of which 42 hectares are dedicated to vineyards. The hills on the property are arranged like an amphitheater, which creates an ideal microclimate for the vines to grow. The primary objective is to obtain high-quality grapes while being mindful of the environment. For instance, no herbicides are used on the property. Instead, herbs are planted throughout the vineyards to control weeds and nourish the soil. In addition, all vineyard management activities are carried out by hand to guarantee the highest quality.
